Letter of Recommendation

Date: May 12, 2017

To Whom It May Concern:

ACE Construction, Inc. has employed Current One Electrical (CSLB #953404) for many of its electrical projects.

I personally prefer the team at Current One due to the following reasons:

- They are responsive and reliable; all proposal requests and scheduling matters are handled with efficiency and respectfulness
- They are knowledgeable and skilled; we have always had exemplary electrical inspections on every project of ours that they have been a part of
- Their team is professional; all of Current One's employees show up to work fully equipped with all tools and material that they need, they are safe workers, and all employees clean up after themselves leaving a safe and clean workspace.
- They are experts; they provide guidance and advice when necessary, if there is a faster and more effective way of getting something done they will let us know and provide a detailed suggestion, their knowledge of electrical codes and practices always impresses.

I have recommended Current One to many Contractors and clients, and I will continue to do so. They have always provided great service to those we refer them to.

If you have any questions, please contact me at extension 312.

Sincerely,

Araz Barsegian
RMO
